

Inauguration of CFPA

Wednesday, March 6th, 2019

15:00-17:00

Room AND 2.11
(address below)

Programme

- Welcome notes (Head of Computational Linguistics, Forensic Institute Zurich, CFPA)
- Talks by
 - ◆ **Peter French** Forensic Phonetic Methods in the Criminal Justice System
 - ◆ **Honglin Cao** Development of Forensic Speech Sciences in China
 - ◆ **Volker Dellwo** Research Challenges in Forensic Voice Analysis
- Aperero and Discussions

Prof. Peter French (JPFrench Associates & University of York) is one of the leading experts in forensic voice evidence worldwide. He provided evidence in some of the most high profile cases in the history of forensic phonetics and acoustics including the Slobodan Milošević and the George Zimmerman Trials. **Prof. Honglin Cao** (China University of Political Science and Law & Fada Institute of Forensic Medicine and Science, Beijing, China) is a researcher and forensic expert with a specialisation on face-voice relationships. **Prof. Volker Dellwo** (CFPA, University of Zurich) is an expert in the acoustic analysis of human voice and auditory speaker recognition.

From 11:00 to 12:30 there will be an open discussion with Peter French on forensic speech sciences, moderated by Honglin Cao and Volker Dellwo. Everybody is welcome to contribute questions. This event will take place in room AND 2.23.

Institute of Computational Linguistics

Andreasstrasse 15, 2nd floor

8050 Zürich
